

Hoe zet ik een push melding aan in de Hik connect app

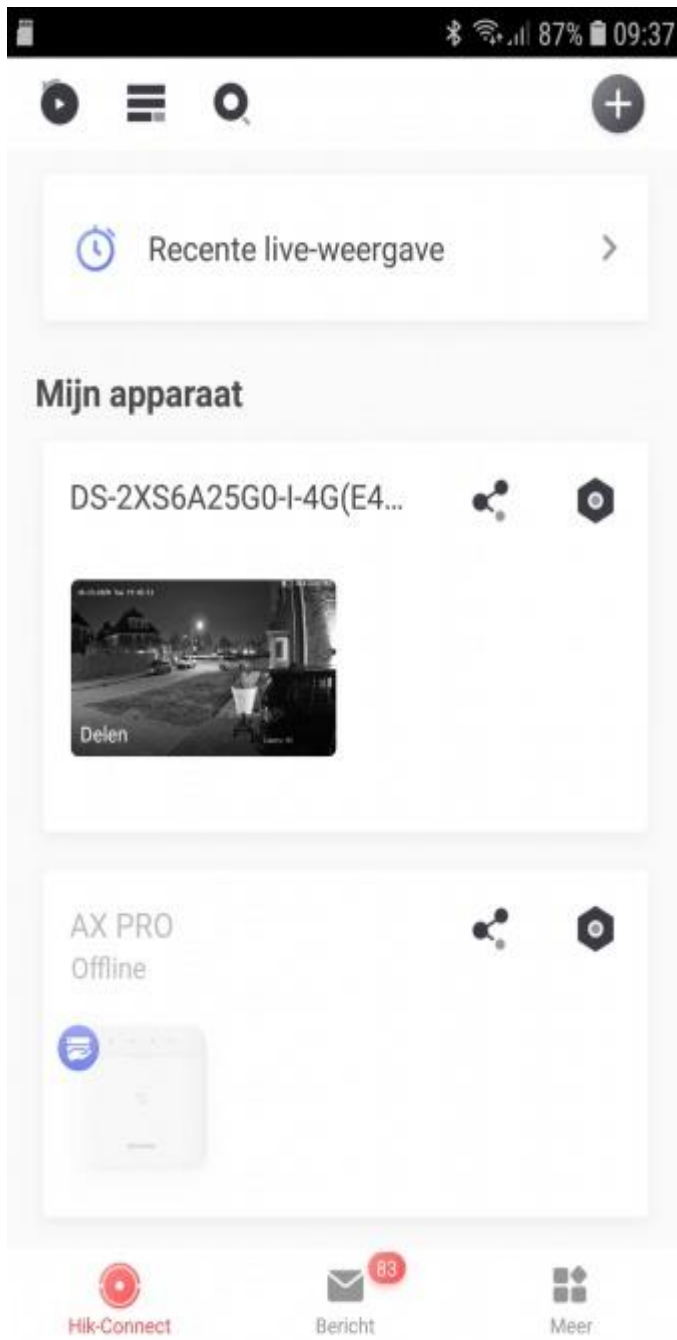

Zorg dat notify surveillance center aan staat bij de juiste gebeurtenis in de camera of recorder

The screenshot shows the Hikvision web configuration interface. The browser address bar displays `http://192.168.1.64/doc/page/config.asp`. The navigation menu includes **Configuration**, **Live View**, **Playback**, **Picture**, and **Configuration**. The left sidebar lists various settings categories: Local, System, Network, Video/Audio, Image, Event, Basic Event, **Smart Event**, and Storage. The main content area is titled **Line Crossing Detection** and includes sub-tabs for **Scene Change Detection**, **Face Detection**, **Intrusion Detection**, and **Line Crossing Detection**. The **Enable** checkbox is checked. The **Linkage Method** tab is active, showing a table of options:

<input type="checkbox"/> Normal Linkage	<input type="checkbox"/> Trigger Recording
<input type="checkbox"/> Send Email	<input type="checkbox"/> A1
<input checked="" type="checkbox"/> Notify Surveillance Center	
<input type="checkbox"/> Upload to FTP/Memory Card/...	

A red **Save** button is located at the bottom of the configuration area.

Druk op het tandwiel-tje van het apparaat

Klik op melding inschakelen
