

Mijn Dahua PTZ camera zou auto tracking aan boord moeten hebben, maar ik vind dit nergens terug in het menu.

Zet hiervoor Smart Codec uit en ga vervolgens naar IVS instellingen

De Smart Codec kan je hier uitzetten:

Camera

The screenshot shows the Dahua camera configuration interface. On the left is a navigation menu with options: Camera, Conditions, Video (highlighted), Network, Event, Storage, System, and Information. The main panel is titled 'Main Stream' and contains several settings:

- Encode Mode: H.265
- Smart Codec: Off (indicated by a yellow arrow)
- Resolution: 2888*1520(2888x1520)
- Frame Rate(FPS): 25
- Bit Rate Type: CBR
- Reference Bit Rate: 1024-8192Kb/S
- Bit Rate: 2048 (Kb/S)
- I Frame Interval: 50 (25~150)
- Watermark Settings
- Watermark Character: DigitalCCTV

At the bottom of the settings panel are three buttons: Default, Refresh, and Save.
