

## Performance Series IP NVR Quick Networking Guide

Document 800-16861V1 - Rev A - 07/2014

This guide shows how to set up your Performance Series IP NVR system for connecting with the Internet, and for using a PC, Smartphone, or Tablet computer.

Before you begin, ensure that you have

- A router and high-speed Internet access
- The NVR connected to a router or switch on your network, using an Ethernet cable. (See the [Performance Series IP NVR Quick Connection Guide](#) for instructions.)

### 1 Local Network Setup

1 Configure the network setting as either Fixed IP or DHCP.

2 Ensure that the NVR can connect to the WAN.

3 Choose the DDNS option in Advanced Settings, by clicking Setting > Network > Network Setting > DDNS (double click).

### 2 Router Port Mapping Setup

Port Range					
Application	Start	End	Protocol	IP Address	Enabled
HTTP	80	to 80	Both	192.168.1.108	<input checked="" type="checkbox"/>
TCP	37777	to 37777	Both	192.168.1.108	<input checked="" type="checkbox"/>

1 Map the TCP port to be 37777.

2 Map the HTTP port to be 80.

**NOTE:** The IP Address should be the NVR's IP address.

### 3 Web Access

Enter your domain name or IP address in the address field in a web browser.

# Honeywell

**North America:** +1 800 323 4576 [www.honeywell.com/security](http://www.honeywell.com/security)  
**Asia Pacific:** +86 21 2219 6888 [www.asia.security.honeywell.com](http://www.asia.security.honeywell.com)  
**Europe:** +44 (0) 844 8000 235 [www.honeywell.com/security/uk](http://www.honeywell.com/security/uk)

### 4 Mobile App Setup

1 Install the Honeywell HonView Touch app.

Find the free app in Apple's App store (IOS) or the Google Play store (Android OS).

2 Tap Device Manager.

3 Tap Add, and then tap Manually Add.

4 Enter your user information, then click Save.

5 Tap to select a Live View channel.

6 Tap to add channels.

## 5 Tablet App Setup

- 1 Install, then open, the HonView Touch HD Plus app for free from the App Store or Google Play store.

The Main window opens.

- 2 Tap the Menu icon in the Main window.

The Menu window appears.

- 3 Tap the Configuration icon in the Menu window.

The Configuration window appears.

- 4 Tap Device Manager, and then select Add.

The New Device interface appears.

- 5 Enter the following in the New Device interface:

- Name: Enter a name for your NVR.
- Address: Enter either your NVR's DDNS address or IP address.
- User Name: Enter the NVR's user name (default: admin).
- Password: Enter the NVR's password (default: 1234).

- 6 Tap Save, and then tap Test.

The Main menu returns.

- 7 Select a Live View channel.

You can now start using the NVR.
